

TRANSFORMING LIVES
The Campaign for Colorado School of Mines

The Shultz Family Leadership in Humanitarian Engineering Speaker Series presents:

Engineering Shared Value.... An engineer's role in corporate social responsibility and sustainable development at Newmont

By Dr. Elaine Dorward-King - Executive Vice President of Sustainability and External Relations at Newmont

**Wednesday September 24, 2014 4 - 5 pm
at Marquez Hall 222**

Elaine Dorward-King was elected Executive Vice President of Sustainability and External Relations in March 2013. Prior to joining Newmont, Dr. Dorward-King served as Managing Director of Richards Bay Minerals in South Africa from December 2010 through February 2013. Dr. Dorward-King previously served as the Global Head of Health, Safety and Environment at Rio Tinto from 2002 through 2010 and also held leadership positions with Rio

Tinto's copper and borates businesses. Prior to that, she worked for Ebasco Environmental and for Monsanto Company as a chemist, research specialist and product manager. Dr. Dorward-King brings twenty-five years of leadership experience in developing and implementing sustainable development, safety, health and environmental strategy and programs in the mining, chemical and engineering consulting sectors. She holds a Bachelor of Science magna cum laude from Maryville College and a Ph.D. in Analytical Chemistry from the Colorado State University. Dr. Dorward-King serves on the Boards of two non-profit organizations, Resources for the Future and Project WET.
